Special Issue

CONFERENCE PROCEEDINGS

Geology in the Lower Mississippi Valley: Implications For Engineering, The Half Century Since Fisk, 1944 Vicksburg, Mississippi, December 5-8, 1994

Roger T. Saucier, Lawson M. Smith and Whitney J. Autin (Editors)

Proceedings: Conference on Geology in the Lower Mississippi Valley: Implications for Engineering, the Half Century Since Fisk, 1944
R.T. Saucier, L.M. Smith, W.J. Autin 1
Harold Norman Fisk as a consultant to the Mississippi River Commission, 1948–1964 – an eye-witness account
R.J. LeBlanc, Sr. 15
Harold N. Fisk: a luminescent man
M.C. Robinson 37
The contributions of H.N. Fisk to engineering geology in the Lower Mississippi Valley
E.L. Krinitzsky 45
Geoarchaeology of the Lower Mississippi Valley
W.G. Haag 59
A contemporary appraisal of some key Fiskian concepts with emphasis on Holocene meander belt formation and morphology
R.T. Saucier 67
Pleistocene stratigraphy in the southern Lower Mississippi Valley
W.J. Autin 87
Holocene evolution of the deltaic plain: a perspective – from Fisk to present
H.H. Roberts, J.M. Coleman 113
Fluvial geomorphic features of the Lower Mississippi alluvial valley
L.M. Smith 139
Loess stratigraphy of the Lower Mississippi Valley
E.M. Rutledge, M.J. Guccione, H.W. Markewich, D.A. Wysocki, L.B. Ward 167
Neotectonics of the upper Mississippi embayment
E.S. Schweig, R.B. Van Arsdale 185
Hydrogeology of the Lower Mississippi Valley as related to the work of Harold N. Fisk
E.H. Boswell 205
Quaternary paleocology of the Lower Mississippi Valley
P.A. Delcourt, H.R. Delcourt 219
Geological influences on the Lower Mississippi River and its alluvial valley
S.A. Schumm, W.J. Spitz 245
Late Quaternary Upper Mississippi River alluvial episodes and their significance to the Lower Mississippi River system
J.C. Knox 263
Loess studies in central United States: evolution of concepts
L.R. Follmer 287
Perspectives on the geoarchaeology of the Lower Mississippi Valley
T.R. Kidder 305
Environmental/engineering geology of alluvial settings
G.A. Kiersch 325
Climate changes: impacts on geomorphic processes
W.M. Wendland 347
Eastern Mississippi delta: late Wisconsin unconformity, overlying transgressive facies, sea level and subsidence
D.J. Stanley, A.G. Warne, J.B. Dunbar 359

Lower Mississippi River tributaries: contributions to the collective science concerning the "Father of Waters"
P.E. Albertson, D.M. Patrick 383
Depositional and pedogenic influences on the environmental geology of Holocene Mississippi River floodplain deposits near Ferriday, Louisiana
A. Aslan, W.J. Autin 417
The response of the Lower Mississippi River to river engineering
L.M. Smith, B.R. Winkley 433
Sediment dynamics in the lowermost Mississippi River
J. Mossa 457
